

ARTWORK GUIDELINES

FOR DTG PRINTING

PRINT SIZE

FRONT

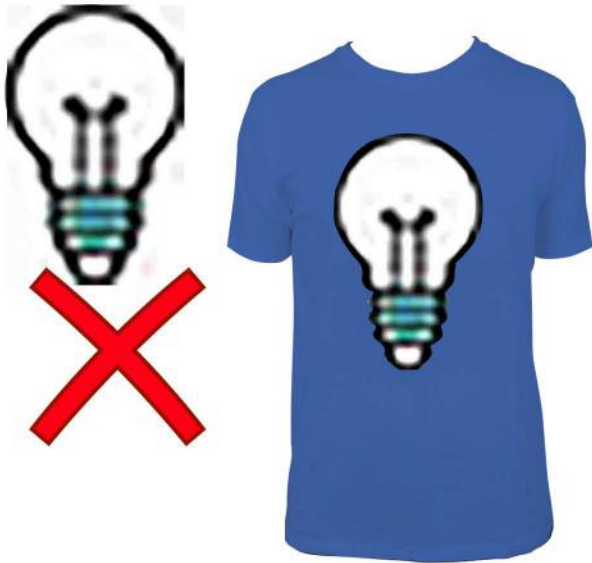

BACK

THE LARGEST PRINT SIZE IS BASED ON THE SIZE OF THE PALLET AND NOT THE GARMENT. A MINIMUM OF 1CM FROM ALL SEAMS MUST BE ALLOWED.

RESOLUTION

THE HIGHER THE RESOLUTION OF YOUR DESIGN, THE BETTER THE QUALITY OF THE PRINT. WE ASK FOR DESIGNS TO BE SAVED AT 300PPI IN 8-BIT RGB.

BACKGROUNDS

IF IT'S ON THE ARTWORK IT WILL GET PRINTED! PLEASE REMOVE ANY BACKGROUNDS OR DETAILS YOU DO NOT WANT PRINTING. PLEASE TRIM ANY UNWANTED TRANSPARENT PIXELS FROM AROUND THE EDGE OF THE DESIGN AS THIS WILL AFFECT THE ACCURACY OF THE POSITIONING.

SCALE

PLEASE SEND YOUR DESIGN AT THE EXACT SIZE YOU WANT IT PRINTING. WE WILL NOT SCALE YOUR ARTWORK BEFORE PRINTING.

50%

100%

FILE FORMATS

WE ACCEPT .PNG.

POSITIONING

INCLUDE A VISUAL CLEARLY STATING THE REQUIRED POSITIONING OF YOUR DESIGN ON THE GARMENT. THE MEASUREMENT SHOULD BE FROM THE CENTRE FRONT/CENTRE BACK NECKLINE TO THE HIGHEST POINT IN THE DESIGN. PLEASE ALLOW 1CM TOLERANCE IN YOUR POSITIONING.

IF NO VISUALS ARE RECEIVED IT WOULD BE ASSUMED THE PRINT IS AT THE FRONT, CENTRALISED AND 5CM FROM THE CENTRE FRONT NECKLINE. WE SUGGEST SUPPLYING THE VISUAL IN AN A4 .PDF FORMAT IN ADDITION TO THE .PNG
